

LL286-48H-12S4P-36V-20W-L560W20-21046

Built-in PCB lighting modules

The module is characterised by its particularly easy-to-use mounting and connection options (ZHAGA book 7-compliant hole spacing). Thanks to producing a homogeneous light field without any discernible individual light points, these LED modules are ideal for use with reflectors in luminaires constructed for T5 and T8 lamps.

* The values mentioned above represent only statistical variables on account of the complex manufacturing process of light emitting diodes. The values do not necessarily correspond exactly to the actual parameters of every single product which can vary from the typical specification.
 ** Production tolerance of voltage and power consumption: +10%/-4%; Measuring tolerance of luminous flux: ±7%
 *** Measuring tolerance of CRI: ±2 | CRI > 80 on request
